

ADRIREC

ADRIatic ports for Renewable Energy Communities

This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)

ADRIREC aims to foster the clean energy transition of ADRION ports by exploiting the untapped potential of renewable energy sources applying the innovative concept of energy communities, reducing CO2 emissions, improving air quality and increasing energy security. ADRION ports will be endowed with new solutions to fight climate change reaching carbon neutrality.
